LIKE IT NEVER HAPPENED

An expunction is a process that petitions the court to remove a case from your record, allowing you to deny that it ever happened

THE PROCESS

Once the statute of limitations on your case has passed, you will be eligible to have the case expunged. We'll submit a petition to the court with all the necessary information and fees. It may take a few months to get it in front of a judge, but once granted, all involved agencies will be required to destroy all records of your arrest and anything that came after.

THE PRICE

We charge \$1,500 for an expunction. For that one cost, we can handle however many cases are expungable. It also covers all of the court fees involved, which make up about half of the cost. We'll take care of it all for you and give you updates through the process.
